

**Signing of MOU between the BIST, BIHER, Chennai, India
and
School of Mechatronics, Changwon National University, Changwon, Republic of Korea**

Centre of Excellence for Prototyping in Nanotechnology (CEPN), a research entity of Bharath Institute of Science and Technology (BIST), Bharath Institute of Higher Education and Research (BIHER), Chennai is made MOU with the Centre for Novel Composites Research (CNCR), Department of Mechanical Engineering, School of Mechatronics, Changwon National University, Changwon, South Korea. This MOU, leads to the exchange of students, research scholars and faculty between the two institutions. The two institutions mutually agreed to work on nanostructured materials, Thinfilms/coatings, development of environmental friendly composites and polymeric materials. This MOU pave the way for the coordination activities, such as joint research, conferences, lectures, seminars and symposia. Dr.G. Balakrishnan, Head, CEPN, BIHER, Chennai and Dr. Jung il Song, Director, School of Mechatronics signed in this MOU at Changwon National University, Changwon on 23rd August, 2018 and will be in force for next 3 years.

Dr.G. Balakrishnan and Dr. Jung il Song exchange the document during the MOU sign at Changwon National University, Changwon, Republic of Korea.
